

**DISCLAIMER:**

These units must be checked / tested and /or calibrated by a suitably qualified technician who must test or calibrate the unit in accordance with the instructions as provided or set out in the relevant manual and the standards set down in their particular industry/country. Suitably qualified operators of the unit should be aware of the regulations and standards set down by their industry/country for the testing or calibration of this unit. These notes are only intended as a guide and insofar as permitted by law the manufacturer accepts no responsibility for the Calibration and Testing or operation of this unit.

Failure to test or calibrate the unit in accordance with the then applicable instructions and with industry guidelines may result in serious injury including death and the manufacturer is not liable for any loss injury or damage arising from improper testing or calibration or inappropriate use of the unit.

The testing or calibration of the unit must be carried out by a suitably qualified technician, in accordance with the testing or calibration manual and in compliance with locally applicable guidelines and regulations.
